

Conference Chair
Prof. Xianbin Yu
Zhejiang University, China

IOP Publishing

Journal of Physics: Conference Series
Conference Proceedings, Open Access
Indexed by EI, Scopus

Conference Co-chair
Prof. Chi Wai Chow
National Yang Ming Chiao
Tung University, China

Topics

Optical communication systems and networks, Optical networks and optical devices, Optical transmission systems and technologies, Optical communication engineering, Optoelectronic devices and integration, Photoelectric measurement and imaging, Optical information processing, Coherent/incoherent optical information processing, White light information processing, Optical image recognition, Spatial filtering, Calculation of light, Other related topics

TPC Chair
Prof. Lin Wang
Xiamen University, China

Participation

1. By full paper submission: send to info@ocoip.com
2. As presenters: send title & abstract to info@ocoip.com
3. As listeners

OCOIP 2023 aims to present the latest theoretical advances and experimental state of the art in the newly developing field of optical communication and optical information processing, with particular emphasis on applications to communication, information storage and processing. The conference aims to share research results, advance the development of the discipline and promote the cultivation of talents. We sincerely welcome all experts and scholars in the related fields to attend the conference.

Ms. Lana Zhang
